

# ROLES OF A LEADER

Roles of a Leader is an interactive full day workshop that provokes participants to think and define their own unique styles of leadership.

This program delves into the many roles of a leader and provides tools to help you effectively use each role in different situations. You will leave with a set of personal convictions and real life examples that clarify your strengths and opportunities for change.

## Program Goals

Participants gain tools to behave more intentionally as a leader while coaching their employees.

As a participant, you will:

- Become a conscious and intentional leader
- Learn what it takes to empower your employees and elevate them within your organization
- Understand the various roles a leader must play, and when it is appropriate to use these roles in different situations
- Apply a collection of practical tools to each of the roles discussed
- Explore what new value you can add in inspiring the organization and affecting the strategic path that the organization will chart.

This program is designed specifically for managers and developing leaders at all levels, including younger leaders or leaders entering a change in their career. Teams or individuals are welcome.

## Program Materials and Tools

You will leave equipped to apply the takeaways in your organization with a handout full of practical leadership tools taught in the program.

## Topics Covered

- Visionary – Most important role of a leader
- Preacher – Leaders often overlook this role
- Strategist – Most leaders take this seriously but fail to make the hard decisions
- Teacher – The role with the highest leverage
- Manager – Leaders who excel here often have a false sense of security
- Coach – Leaders know its importance, but few have adequate tools
- Sergeant – Most difficult role to switch in and out of
- Worker – Leaders confuse this with doing the work

## Course Facilitator

Chris Bachinski, President of Consulting Services at Think Shift, is an accomplished senior business leader who is innovative, analytical, adept in identifying opportunities and efficiencies, and implementing continuous improvements to optimize profitability. He provides leadership training, coaching, and insight into succession planning, corporate culture and team building. Chris helps companies move toward their definition of success and create effective change from the inside out.
