

# INNOVATION SERIES

Get Inspired

QNET presents:

## Innovation Engineering Quick Start

*Learn how to accelerate innovation immediately*

Tuesday & Wednesday, June 5 & 6 - 8:15 a.m. to 4:30 p.m.

Location: To be announced, in Winnipeg

Everyone talks about innovation as the key to company (and career) success in this rapidly changing world. Few have had an opportunity to learn a front-to-back system to innovate – until now.

Learn how to accelerate innovation in your work immediately – regardless of your skill, title, or work experience. With practical, hands-on lessons and real-world application, this is how you can make innovation happen. Rated 4.8 stars out of 5 participants, this is unlike any business training you've ever experienced.

*Do you want to innovate, but are not sure how to start?  
Are your innovation efforts slow or have a low success rate?*

Following this two-day session, you will have access to a personal innovation coach for sixty days.

***Upon the successful completion of the course work, you will receive your Innovation Engineering Blue Belt, an internationally-recognized innovation certification.***

At the Innovation Engineering Quick Start, you will learn the skills, tools, and systems of innovation, including:

- How to create ideas and problem solve (with methods eight times more effective than brainstorming);
- How to use proven tools and techniques to grow your innovation skill set;
- How to develop, communicate, test and validate ideas to show return on investment;
- How to take an idea from inspiration to launch – fast.

**Fee:**

\$2,700.00 + GST for Members of QNET or APICS or Manitoba Aerospace  
\$2,950.00 + GST for Non-Members

*This session is presented by QNET in partnership with Manitoba Aerospace, APICS Winnipeg Chapter and Manitoba Education and Training. It is an optional course in the 70 credit hour QNET Certificate in Management Development (CMD).*

### Workshop Facilitators:

**Wendy Ferris, Partner, inVision Edge**

With previous business experience at an executive level, Wendy has seen first-hand that innovation is needed throughout an organization to strategically support success and drive results. An Innovation Engineering Black Belt and certified innovation instructor at the University level, Wendy is able to use her mastery-level education and experience to help leaders and organizations make innovation happen faster and more successfully. Wendy's mission is to make sure everyone everywhere knows how to make innovation happen successfully every day for their organizations.

**Rhonda Honke, Innovation and Growth Strategist, inVision Edge**

Rhonda's commitment to and drive for innovation stems from her passion to help organizations and their employees "win". Her innovation certification, along with executive level experience in functional areas such as Human Resources, Information Technology and Customer Service, means she is well equipped to support teams on their journey from challenge / opportunity identification through idea generation, concept testing, and solution implementation.

***Make innovation a way of life in your organization with practical tools and insightful ideas that foster idea breakthroughs***
