Get Inspired

QNET presents:

## The Creative Thinker's Toolbox:

An Introduction to Creative Thinking Techniques

Date to be announced (postponed to 2010) – 8:00 a.m. to 12:15 p.m.

Increase creative collaboration, productivity and performance with The Creative Thinker's Toolbox.

Constant change demands that we become more flexible and adaptable in our approach to generating ideas and solving problems. Creative thinking helps to cultivate a creative spirit and view problems from different perspectives.

The Creative Thinker's Toolbox is a collection of tools and techniques to expand creative thinking ability. You can use the tools to assess creative skill level and attitude, practice tools for generating ideas, and select elements to cultivate a creative climate.

This workshop is for senior executives, directors, managers, and employees at all levels – anyone who wants to apply and encourage creative thinking in themselves and others.

**Facilitator: Nancy Peterson of Think Unlimited** helps leaders and teams connect and strengthen relationships, align values and commitment toward a positive and attainable future, and increase creative collaboration, productivity and performance. Think Unlimited strategic planning, team performance and creative thinking programs are designed to help participants value individual thinking and discover the collective wisdom that results when people work to bring out the best in each other.
