Build Your Own QNET Conference Sponsorship

QNET Conference sponsorship packages are crafted to immerse sponsors in the conference, with levels offered as a starting point on which to build. With this in mind, Build Your Own Sponsorship allows you to select a Sponsor Level & Benefits, add your own ideas, and ultimately create your own tailored package.

Rather than traditional booths, we aim to facilitate active and engaging networking break experiences for sponsors and participants. The value for sponsors comes from finding unique opportunities for participants to learn and share knowledge in a way that aligns with the event and showcases your expertise.
